

6.4m CROP COVER GREENHOUSE

We've Got You Covered

At Croft Structures, we are proud to support growers as an Australian manufacturer of plastic-covered commercial greenhouses and crop cover solutions, with strong and enduring ties to the horticultural industry.

Our 6.4m wide Crop Cover Greenhouse offers growers a versatile solution – from cost-effective manual ventilation with butterfly vents and roll-up side blinds, through to advanced automated systems featuring exhaust fans and louvres.
